#### COMPULSORY LEGISLATION.

# People's Alliance in Favor of Extra

Session of the Legislature. HAZLETON, Pa., Sept. 4 .- The convention of the People's Alliance, called for the purpose of putting some plan in operation for the settlement of the anthracite miners' strike, opened to-day with about seventyfive delegates in attendance, representing fifteen different coal-region towns. A committee consisting of one member from each alliance represented was appointed to confer as to the best method to be adopted by the convention for bringing about, if possible, a termination of the struggle.

The convention sent a telegram to President Roosevelt congratulating him upon his escpae from serious injury. Archbishop Ryan, of Philadelphia, had been invited to attend, but sent his regrets.

The committee appointed to draw up plan for terminating the strike reported unanimously in favor of a special session o the State Legislature to enact the following legislation, as proposed by the convention: Compulsory arbitration; that present legislation be revised so that the State may have more power over foreign corporations doing business within its borders; the passage of a law making it illegal for any person under twenty-one years of age to be employed more than eight hours a day, and that those articles of the State Constitution which relate to the control vested in the Legislature over the charters of corporations and giving the Legislature power to annul, revoke or alter these charters if the public interests are endangered by violation of the Constitution and forbidding common carriers from being interested in the production of any industry be made effective. A motion that the weighing of coal be also made compulsory was voted down. The alliance will ask all boards of trade and towns in the anthracite field to co-operate with and continue the work of the organization. The policy of President Roosevelt against alleged illegal combinations of capi-

tal was indorsed. The committee which recommended the settlement plan was made a permanent body and instructed to carry the recommendations of the convention to Governor Stone. The committee has asked the Governor to name a date when it will be convenient for him to receive its members. The convention adjourned sine die this

## WILL IMPORT ANTHRACITE.

#### Philadelphia Schools Will Use Coal Mined in Great Britain. PHILADELPHIA, Sept. 4.- The Board of

Education of this city has completed arrangements by which anthracite coal will be imported from England to furnish fuel for the public schools during the winter. Owing to the mine workers' strike the proposals of the board for furnishing about 25,000 tons of hard coal brought no bids, the Philadelphia and Reading Coal and Iron Company and the Lehigh Valley Coal Company announcing that they could not quote prices. The average price heretofore paid for coal for the city schools has been \$5.50 a ton, but under the arrangement just effected the cost of importation will about \$6.50. The work of transferring the fuel from the wharves to the schools will involve an additional expenditure. The amount appropriated by Council for the current year is \$56,000, and an additional appropriation will be asked by the board to meet the increased expense.

LONDON, Sept. 4.-The newspapers here announce that the British steamers Glencoe and Devonshire are loading 8,000 tons of anthracite coal at Swansea for New York, these being the first cargoes of that lescription. It is further asserted that the shipments were ordered in consequence of the coal miners' strike in the United

#### Threshing Machine Burned.

RISING SUN, Ind., Sept. 4.—A threshing machine belonging to John W. Brook, and about 1,000 bushels of wheat belonging to W. Nelson, were destroyed by this afternoon, about two miles west of here. The fire department of this city sent ine and men to the scene and saved the residence and barns of Mr. Nelson from burning. Grant Collins was seriously infured in the head during the excitement. Sparks from the engine caused the fire.

The Council Will Probably Not Change the Tax Levy.

The County Council was in session yesterday, but failed to complete its estimates on which to base the tax levy for the coming year. Auditor Smith stated last evening that in all probability the levy for next year will be the same as for 1902-29 cents, with 4 cents for the sinking fund and 41-3 cents for the gravel roads fund. The Council will not change the levy for the sinking and gravel roads fund, and may not change the 29-cent levy for county needs. The total appropriations for the coming year will be between \$475,000 and The increased cost of fuel will about offset the appropriations made last year that will not appear in the budget for the coming year.

George Merritt Talks About Southern California.

George Merritt, member of the Board of Park Commissioners, and his family have returned from southern California, where they have been for six months. Mr. Merritt says southern California and San Diego and vicinity is a pleasant place to spend the summer as well as winter, the temperature there ranging from 60 to 90 degrees. He is much interested in that part of the State and says that while there are many beautiful cities, but none so pretty and clean as Indianapolis. Mr. Merritt has taken enterprises in Indianapolis, and Military Park owes its present beauty to his personal efforts. He drafted the bill creating the Park Board and was largly instrumental in securing its passage in the Legislature. When the Park Board was established he was appointed a member and has since been reappointed.

# FREY'S DREAM OF HEAVEN

IT WAS INTERRUPTED BY ARREST FOR GRAND LARCENY.

While at Prayer in Colored Church He Was Found by Patrolmen and Removed.

Little did Andrew Frey, colored, think last night as he entered the little church at the corner of Eleventh and Fayette streets that he would be taken away from prayer meeting charged with grand larceny. Two bicycle policemen walked up the middle aisle and quietly asked Frey to accompany them to the outside. The service had been nearly concluded and there was as much excitement in the little wooden church as if a bombshell had been hurled into it. No one could understand what the presence of the patrolmen meant.

It was learned yesterday by the superintendent of the New Telephone Company that 1,000 pounds of copper wire had been stolen from the storeroom. Frey, who is a janitor at the place, was suspected of the crime. Bicycle Patrolmen Morgan and Simon were sent to the office of the company last night and they searched Frey's locker. They found two large wheat bags filled with coils of copper wire. Around the bottom of the locker small pieces of wire that had been chopped from coils were to be found. After this the police went to Frey's home, at No. 305 West Thirteenth street, and were told that he was attending prayer meeting in the colored church at Eleventh street. The police went there and found Frey well up in front, lending a heavy voice to the "Amens!" that were being sounded.

A tap on the shoulder from one of the policemen brought Frey back from his dréams of heaven. When he was taken outside he confessed, after much questioning, that he had taken the copper. He understand fully how short a time exists | said he had been stealing for some time, aided by another employe of the company. He refused to tell the name of his accomplice. He was sent to the police stasize the canvassers for the fund yesterday | tion, and the policemen went to his house and made further search for copper coils. None was found at the home, but the wife and daughters of Frey, when told of his raised within two weeks if Indianapolis predicament, screamed loudly and one of the daughters fainted. It was said last night by the superin-

tendent that Frey has been making \$25 a week out of his job. He received a salary of \$12 for cleaning out the place. The extra \$13 he makes by selling the waste paper and small scraps of copper wire that are given him.

## COUNCIL MONDAY NIGHT.

#### Mayor Bookwalter Will Issue the Call -Municipal Affairs.

The special meeting of the Council to receive the message of Mayor Bookwalter and the city budget for 1903 will be held Monday night. Mayor Bookwalter will issue the call to-day or to-morrow. The estimates of the department as revised by Controller Breunig will be gone over by Mayor Bookwalter, and the tax levy will be no more than enough to care for all the items. Mayor Bookwalter said yesterday that the levy would be, in the light of present estimates, 88 cents. He said he had not gone over the estimates with Controller Bruenig since his return, but would give them careful attention. He said the levy would be no higher than absolutely neces-sary, and that 88 cents seemed sufficient to produce all the revenue needed.

## Position of Isaac King.

Mayor Bookwalter has asked City Attorney Joss for an opinion as to whether, unhas violated the law in having a financial interest in certain public contracts. The future action of Mayor Bookwalter will hinge on this decision. Should the city atcharter for a member of the Park Board to have such interests the mayor will ask King's resignation. The mayor has sent the letters and communications he received from Dennis Murphy relating to King's interests, and also to the contracts of T. E Kane, to the grand jury for investigation Murphy made serious charges against members of the administration, but refused to substantiate them.

ble 1,200 in Military Match. SEA GIRT, N. J., Sept. 4 .- Another day of remarkable shooting and smashing of records was closed to-night with the windup of the company team match (Tyro.) The prinicpal event of the afternoon and one of the most important of the meet, the interstate military match, was won after a hard fight by the New Jersey team, which scored a total of 1,082 out of a possible 1,200 and incidentally broke the high score record, 1,074, which New Jersey established last year. The District of Columbia team, which finished second, equaled the 1.074 record, and shattered the record for the 500-yard stage of the match. The match was open to the army, navy and marine corps of the United States, the National Guard or State militia of the several States and Territories and of the District of Columbia. The teams consisted of twelve men each, and each man fired ten shots at 200 yards and ten shots at 500 yards. Several of the riflemen made per-

fect scores at the 500 yards stake. The prize which New Jersey retains is the pronze "Soldier of Marathon," presented by the commander-in-chief in behalf of the State of New York. It is shot for annually and is held during the year by the adjutant general of the State whose team wins it. The trophy is valued at \$350. Each member of the winning team receives a

Many New Features to Be Introduced

by the Yacht Builders. LONDON, Sept. 4.-Commenting on the preparations being made on the Clyde in connection with Sir Thomas Lipton's intention to challenge again for the America's cup, the Yachting World to-day says: "The Shamrock I, which is undergoing a thorough overhauling, is wonderfully well preserved. Captain Wringe, who is expected to have sole control of the next challenger, is superintending the work on the Shamrock I and is constantly in consultation with Mr. Fife. By the time the Shamrock I returns to her winter moorings at Gare Loch (Scotland) it is practically certain that a good start will have been made with building the Shamrock III.' In planning Sir Thomas Lipton's new challenger Mr. Fife has introduced many

unexpected features. His experiences with recent challengers have made him distrustful of new metals and alloys and he has decided to drop them. Consequently the contract which the Dennys have in hand provides for the building of a cup racer wholly of steel. The frames are to be of bulbed angle steel and the plating will be thin plates of nickel steel. The Dennys experimental tank has been used, but the experiments have not been allowed, as previously, to dominate the model. The latter will be prepared at

Fairlie principally from knowledge of the faults and conditions which the designer recognized in the first Lipton challenger. This completed model, when tested, may be found satisfactory, and no alterations may be made. This is directly opposite to Mr. Watson's method for the Shamrock II, which was evolved entirely from tank experiments. Mr. Fife declines to discuss the matter, but long prior to the talk of even | was in good trim, of a game. ## DYNAMITE OUTRAGE.

Attempt to Blow Up a Former College President's House.

ADA, O., Sept. 4 .- A stick of dynamite was placed under the front porch of Prof. H. S. Lehr's residence yesterday and exploded. The explosion tore away the front steps, burst the casing, and tore the name plate from the door, damaged the telephone and broke fourteen heavy plate glass windows in different parts of the house. So great was the force of the explosion that windows in neighboring houses were shattered. Prof. Lehr, ex-president of the Ohio Normal University, slept in the room directly above the porch where the charge was placed. Frightened by the crashing of the windows, he fled down the back stairs in his night clothes and awakened the servants. His daughter Harriet is in a critical condition from the nervous shock. Fresh buggy tracks were noticed in front of the house, and these were traced to the home of Douglas Pugh. Six students and a citizen joined in the search, and when Pugh was arrested a determined band of students was ready to lynch him, but Prof. Lehr interfered. Pugh was taken to the

A Miserable Exhibition.

DETROIT, Sept. 4 .- The final game of the season between Detroit and Philadelphia to-day was a miserable exhibition. Mc Carthy pitched poorly and was given worse support than the error column shows. The feature was the Philadelphia base running. In the first two innings they stole six bases. After reaching first in the second Fultz stole second, third and home. Waddell retired at the end of the sixth to save him for the Cleveland series. Detroit bunched four hits in the eighth and scored their only runs. Score:

Cresceus Trots in 2:04 Flat. COLUMBUS, O., Sept. 4.-The champion trotter Cresceus failed in an attempt to lower his record of 2:0214, trotting the mile in 2:04 flat. The weather was chilly and a strong wind from the northwest seriously interfered with his speed in the second and third quarters. The horse reached the half in 1:00%, but the effort against the breeze was too much for him and he lost at least two seconds in the third quarter. He was paced by two runners and a rider on a motorcycle followed his sulky. The time by quarters was: First quarter, :29%; half, 1:00%; three-quarters, 1:23%; mile, 2:04. Six thousand people watched the performance.

DASH STAKES AT SHEEPSHEAD

BAY WON BY INVINCIBLE.

JOCKEY LYNE WAS UP

Ran the Five Furlongs in 59 Seconds, a New Record for the Distance-

Other Races.

NEW YORK, Spet. 4.-Invincible, with Lucien Lyne in the saddle, won the dash stakes for two-year-olds at Sheepshead Bay to-day. The Dash stakes is a fivefurlong sprint over the Futurity course, and the Himyar colt ran the distance in 59 flat, which is a record for the race. Twelve good two-year-olds faced the starter, with Lord of the Vale, who ran second to Savable in the Futurity, favorite at 9 to 10. Yardarm, who was added, was a second choice, and the winner was at 25 to 1. Invincible led all the way and won in a driving finish by a head from Blue Ribbon, who was a head in front of Lord of the Vale. The Westerners went down the line on Articulate in the turf handicap. The St. Andrew colt won in a gallop by five lengths and the ring lost heavily, as he was as good as 10 to 1. Lucien Lyne, the Western jockey, rode three winners. Winners in order: Nevermore, 8 to 1; Chucta-

to 1; Alabarach, 8 to 5; Articulate, 8 to 1. Stemwinder Won Sapling Stakes. CHICAGO, Sept. 4.-Stemwinder, the even-money favorite, won the Sapling stakes at Harlem to-day, Adios at 25 to 1 forcing him to run the half mile in .47 3-5 to win by a neck. It was an exciting finish,
